

Price list 2024

MPS-ABC USA and Canada

Module A MPS-ABC record-keeping: USD 1.644 all-in

- First year of record-keeping for new MPS-ABC growers.
- Record-keeping for 13 consecutive periods of 28 days.
- Send data digitally at the end of each period.
- It is possible to be certified within six months by recording retroactively.
- For the first year, a fixed rate applies without additional costs and including any additional locations.
- There are no registration fees for MPS-ABC.
- After one year of participation in Module A, automatic transfer to Module B.

Module B MPS-ABC certification: basic rate USD 3.485 plus acre fee

- In addition to record-keeping, audits and samples also take place within Module B.
- An audit takes place every three years as standard, sample taking annually.
- Acre fee depends on cultivation area (see table acre fee).
- In the case of an acre fee, the average surface area of the previous year applies.
- An additional charge of USD 1.118 applies for each additional location where record-keeping is done separately (sub record-keeping).

Module A MPS-ABC record-keeping (first year)

What is included?

- Access to the online MPS-ABC record-keeping environment.
- Personal assistance by starting up the digital environmental record-keeping.
- Service & Support (by telephone and online).
- Usage overviews (insight into usage and score).

Module B MPS-ABC certification

Everything as Module A plus:

- Audits (once every three years as standard): a maximum of eight hours and two extra hours per additional location where registration takes place separately (sub record-keeping).
- Audit reports.
- Annual sample.
- Certification.
- Use of MPS-Vignette.
- Visibility in sales channels and on MPS-Tradeportal.

What is not included?

- Extra audit hours above the established maximum (as per rate Certifying Body)*.

Price list 2024

MPS-ABC USA and Canada

Module B MPS-ABC certification

The acre fee* is calculated as follows:

< 25 acres : USD 67 per acre
> 25 acres : USD 33 per acre

* The acre fee will be calculated per location.

Uncovered cultivation:

When calculating the area for the acre fee, a correction applies for uncovered cultivation: number of acres x 0.25.

Mixed cultivation:

In the case of both covered and uncovered cultivation, the corrected acres are added together.

All information and prices on this price list are subject to (typing) errors.
